MINORI

JOSHUA

WILKO

TRACTION

PERFORMANCE

It has excellent controllability and is designed to fit a performance board.

WIDE

Large size model ideal for boards with wide board width and tail.

ALTERNATIVE

A model that matches surfers who prefer an innovative style.

SPECIALITY

A model designed for boards such as FISH, LONG, and SUP.

ECO PACKAGE

A new eco-friendly paper package that does not use plastic.

KICK

Air Contact

A two-step kick enables vertical board control and high air. A top layer that wraps over the end of the kick provides additional grip.

Square Kick

A square-shaped kick with an edge. The tail end is easy to recognize and can be pushed firmly, enabling sharp board control.

Grasp Kick

A newly developed kick with a groove in the side cut. Since you can firmly grasp the kick with your toes, it works effectively for aerial and tail kicking movements.

Fun/Long Kick

TLS original kick specially tuned for FUN / LONG. The gently set kick part will surely convey the power to step on to the tail of the board.

*FUN/LONG only

FUN/LONG Kick

Specially tuned up for FUN / LONG
TLS original kick.

FIVE STAR LEASH

LEASH

JOINT

Updated joint parts. It has been redesigned with a solid design to improve strength. In addition, the slim shape suppresses water resistance to the limit.

STRAP OUTER

Uses a strong and highly waterproof material. Preventing water absorption keeps the straps from becoming heavy while surfing.

NEOPRENE INNER

By using neoprene material inside the cuff, the cuff keeps displacement to the minimum during riding and parking.

5cm WIDE CUFF

Adopted a thicker cuff than the general one according to TLS theory. Although it is wide, it does not give a sense of discomfort and significantly reduces the burden on the ankle.

EXTRA LOCK

Using strong adhesive Velcro all over for new TLS system. Keep the strap securely fastened.

RAIL SAVER

A rail saver that allows you to write the date of use. You can check the replacement time.

ECO PACKAGE

ECO PACKAGE

A new eco-friendly paper package that does not use plastic.

LONG RAIL SAVER

The rail saver extended to 19 cm for the fish tail reduces the trouble that the joint part interferes with the board.

BOARD CASE

2 IN ONE HARD CASE

Designed to hold two boards. This is the result of considering how to select the most suitable board for beach breaks where conditions change greatly due to tides and winds, and surf trips where you cannot understand the wave conditions before departure. It is possible to choose a board that suits your purpose, such as special boards and small waves, allround boards and super breaks, and it is also useful for short trips and ordinary surfing.

BOARD DIVIDER

Insole can set the board separately.

ZIPPER

Place the zipper on the top, so it protects the rail.

ZIPPER GUARD

Prevents the zipper from hitting the rails on the board.

CUSHION HANDLE

Cushion handle that does not get tired even after long-time grip. Convenient size for display.

FIN POCKET

Fin pocket inside of case.

SHOCK ABSORBING

Uses 8mm thick foam to protect the board from impact.

SHOULDER STRAP

Detachable shoulder strap.

COMPRESSION STRAPS

A convenient strap for traveling is installed.
*FUN, LONG only

FULL OPEN

Full open zipper for easy board access
*FUN, LONG only

FIN SLOT

Adjustable fin hole

SURF CAP

¥3,600+TAX

Size : FREE

The amphibious surf cap uses a mesh material for the sweat band to absorb sweat well. You can use it with a leash while surfing and adjust the size with a snap button. It is a rust-free design because it does not use metal fittings.

BB ACCESSORY

TURQUOISE

BLACK

WHITE

PINK

The inner of the strap
Neoprene that is hard to slip.

Uses stainless steel ring for swivel
connection Achieves smooth rotation and
high strength.

Coil cord adjusted to a length that does not
interfere with riding.

BB LEASH CORD

¥3,000+TAX

Size : Small Arm / Large Arm / Wrist
Redesigned and newly developed
BB leash. The thickness, number of
turns, and length of the coil cord have
been reset, and the ease of use has
also greatly improved.

The design of the heel part makes it easy to fit the ankle, and it does not come off due to the impact of the waves and provides a sense of stability.

PINK SARI MODEL
HARD

Signature model of Sari Ohara, who won the APB World Champion. A hard blade is used for the pink part, and even those without leg strength can raise the propulsion power to MAX speed.

BLUE
SOFT

The softest specification in the series. Anyone can use it easily with less strain on the legs.

ORANGE
MEDIUM

Recommended for those who step up from beginner to intermediate level. Soft rubber from the foot pocket to the heel. By using it, it reduces the burden and rubbing on the foot, and the blade. It is possible to convey the bending to the part in a flowing manner.
