TLS

KEY FEATURES

SUSTAINABILITY

Recycled form

Eco form

ECO PACKAGE

Eco-friendly paper packaging that uses no plastic.

Two next-generation materials designed to minimize environmental impact are used in select models. One is a "recycled material" made from reprocessed waste. The other is a bio-based material derived from algae. While significantly reducing the use of petroleum-derived raw materials, these materials deliver both excellent grip and durability capable of withstanding intense action.

KICK

Air Contact

The two-stage kick enables vertical board control and high airs.

Square Kick

A square-shaped kick with sharp edges. It allows for solid pushing and sharp board control.

Fun/Long Kick

TLS Original Kick. The long-set kick reliably transfers the power of your push to the board's tail.

EVO

UNIQUE KNEE LEASH CUFF

Our original cuff design minimizes interference between parts by rolling in the opposite direction, extending the life of your wetsuit.

KEY FEATURES

- JOINT**
A solid structure tested in the pipeline for high strength and an original joint that minimizes water resistance to the utmost.
- STRAP OUTER**
Made from durable, water-resistant material. Prevents water absorption, keeping the strap lightweight even during surfing.
- SILICON PRINT INNER**
Silicone anti-slip lining on the inner cuff. Thick cushioning reduces riding stress.
- NEW VELCRO & PULLER**
The new cuff design with exposed Velcro enhances the adhesive strength, making it less likely to come undone while surfing.
- 5cm WIDE CUFF**
Featuring a wider cuff than standard designs based on TLS's proprietary theory. Significantly reduces strain on the ankle without causing discomfort.
- NEW SLIM CUFF**
By widening only the joint base portion of the cuff, we eliminate the ankle pain often associated with narrow cuffs.

BOARD WRAP

NEW

- short 6'6
- retro 6'5
- fun 8'0
- long 10'0
- long strap 10'0

The popular board wrap has evolved into a "3-layer thick fabric" resistant to UV rays and water. Ultra-lightweight with easy attachment—just hook on the elastic cord.

short 6'6	4560489662541
retro 6'5	4560489662558
fun 8'0	4560489662565
long 10'0	4560489662572
long strap 10'0	4560489662589

The design avoids metal parts to prevent damage to the board and deterioration caused by rust.

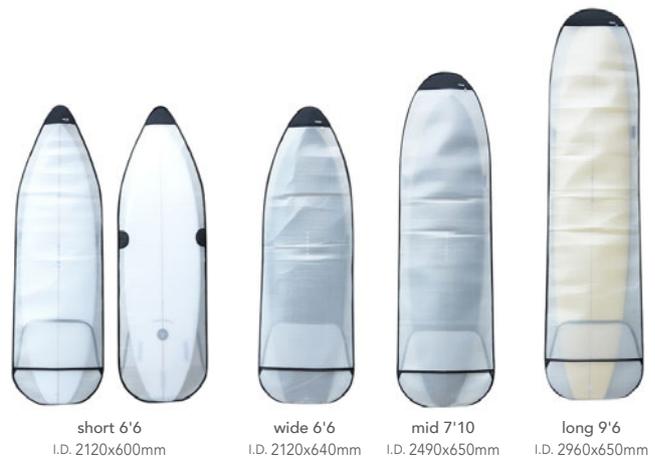

Ventilation for convenient long-term storage or storing wet boards.

AIR BUBBLE CASE

NEW

- short 6'6
- wide 6'6
- mid 7'10
- long 9'6

Ventilation ensures airflow. Original design without metal parts. Also serves as an inner case for trips or a simple board case.

short 6'6	4560489661209
wide 6'6	4560489661216
mid 7'10	4560489661223
long 9'6	4560489661230
